CAREER OBJECTIVE

Highly dedicated Full Stack Developer specializing in **HTML, Tailwind CSS, React, Next.js, JavaScript (ES6+), TypeScript, Node.js, Mongodb, Mongoose**, proficient in creating pixel-perfect, responsive, and intuitive web applications. My expertise includes writing clean, scalable code and developing robust full-stack features to build high-performance, user-centric digital solutions.

TECHNICAL SKILLS

- **Frontend:** HTML5, CSS3, Tailwind CSS, JavaScript (ES6+), TypeScript, React.js, Next.js, React Router, React Query, Redux Toolkit, and Context API
- **Backend:** Node.js, Express.js, REST APIs, Next.js API, JWT(JSON Web Token) Authentication, Mongoose, Redis, Postman, and Firebase Authentication.
- **Database:** MongoDB
- **Tools & Platforms:** Linux, Docker, Git & GitHub, VS Code, Cursor, Antigravity, Vercel, Netlify, Firebase, Figma.

KEY PROJECTS

Care.IO – Full Stack Role Based Premium Caregiving Services Platform | [Live Link](#) | [GitHub](#)

As a Developer, I leveraged AI-assisted coding and advanced prompt engineering to rapidly architect and build this platform, connecting users with certified caregivers through a seamless and secure booking experience.

Tech Stack: Next.js, TypeScript, Shadcn UI, Framer Motion, MongoDB, Mongoose, Recharts, Stripe, JWT

Key Features:

- Engineered a full-stack Next.js app with JWT authentication and secure role-based dashboards for Users and Admins.
- Integrated Stripe for secure checkouts and built an interactive admin analytics dashboard using Recharts.
- Leveraged TypeScript for strict type safety and Mongoose for robust data modeling.

Book Courier – Full-Stack Role Based Online Book Management Platform | [Live](#) | [Client](#) | [Server](#)

As a developer, I built this full-stack platform to streamline book ordering and management, ensuring a seamless experience for users, librarians, and administrators.

Tech Stack: React.js, Tailwind CSS, Node.js, Express.js, MongoDB, Firebase, Stripe

Key Features:

- Engineered a full-stack platform for ordering and tracking books with role-based access control (RBAC) for Admin, Librarian, and Users.
- Integrated Stripe Payment Gateway for secure transactions and Firebase JWT for robust multi-role authentication.
- Developed a dynamic order tracking system (Pending, Shipped, Delivered) and inventory management for librarians.

StudyMate - Subject Wise Smart Study Partner Matching App | [Live](#) | [Client](#) | [Server](#)

As a developer, I built this full-stack application to help students easily find and connect with ideal study partners based on their specific subjects and experience levels.

Tech Stack: React.js, Tailwind CSS, Firebase Auth, Node.js, Express.js, MongoDB

Key Features:

- Secured access via Firebase-integrated authentication (Login, Signup, Google Social Login).
- Utilized sophisticated filtering for precise subject and experience-level partner matching.
- Developed an interactive dashboard to manage connections and partner requests, featuring a fully responsive UI with dark mode.

EDUCATION

Bachelor of Arts in Arabic Language & Literature

International Islamic University Chittagong (01/2022 - 01/2026)

LANGUAGES

- Bangla (Native)
- English (Professional Proficiency)
